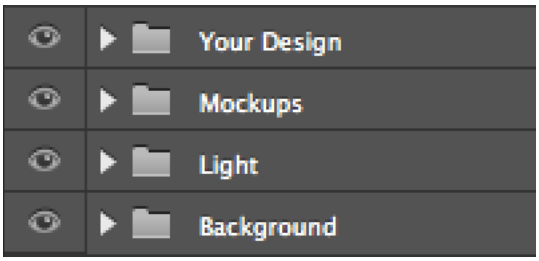
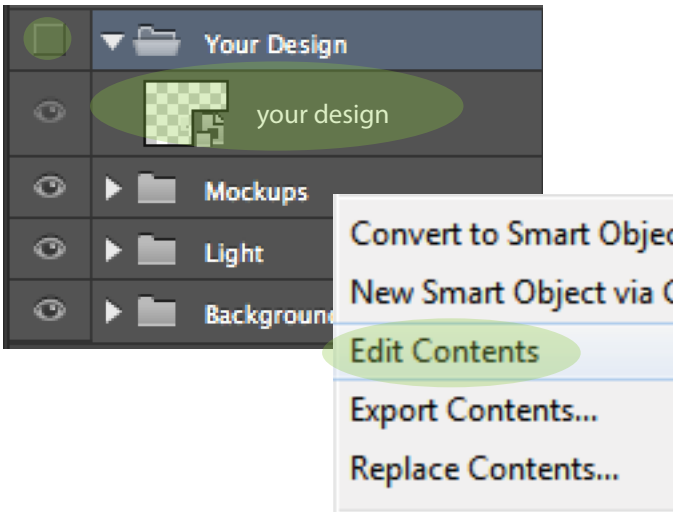
How to Add Your Design ?

After your purchase & download this graphic, you will find a Photoshop .psd file which contain all your mockups. Once you open the photoshop file, you will find the following layers.



To add your design, go to the first group layer “Design” and expand its content by ticking the arrow next to it as shown in the screenshot.
Under this layer, you will find all your smart object layers you will need to customize the mockup. Right click on each layer then click “edit contents”, a new window will open, paste your design, color or texture in this window and save the file. Now go back to your main file, you will find that the design has been updated.



thank you.
